UGANDA NATIONAL BUREAU OF STANDARDS

CHEMISTRY LABORATORY TEST REPORT

Test Report No: FA/2023/01061 Sample No: L/0260/2023C Field No: B#:21907100123

Name of Client: UGACHICK POULTRY BREEDERS LIMITED Address: Magigye Gayaza off Namulonge Road, Wakiso

Manufacturer / Exporter: UGACHICK POULTRY BREEDERS LIMITED Sample Quantity : 1 pack × 1.2 kg

Sample Description: Dressed Poultry (UgaChick Dressed Chicken brand) Lot Size:

State of Sample(s): Sample was received packed in a sealed polythene sachet

Sampling Report No: N/A Date of Testing : 2023-02-01 Lab Receipt Date: 2023-01-25

Test Method(s): US EAS 953: 2020 & US CAC/MRL 2:2015, Charm II,

Test Results

#	Parameters	Results	Specification	Status
1	* Tetracyclines			
	i). Chlortetracycline (µg/kg)	<100	200 (Maximum)	Pass
	ii). Oxytetracycline (µg/kg)	<100	200 (Maximum)	Pass
	iii). Tetracycline (µg/kg)	<100	200 (Maximum)	Pass
2	* Aminoglycocides 1			
	i). Streptomycin (µg/kg)	<600	600 (Maximum)	Pass
	ii). Dihydrostreptomycin (µg/kg)	<600	600 (Maximum)	Pass
3	* Macrolides			
	i). Spiramycin (µg/kg)	<200	200 (Maximum)	Pass
	ii). Lincomycin (µg/kg)	<200	200 (Maximum)	Pass
	iii). Tilmicosin (µg/kg)	<100	150 (Maximum)	Pass

Attachment(s) to the test report : NONE

Remarks:

1. The above sample was analysed as per the instructions on UNBS Request for Analysis Form serial Number RFA/2023/0665.
2. The Analysis was carried out at UNBS Chemistry Laboratory located at the address below using the test methods indicated above and the status of results as per the Uganda Standards, US EAS 953: 2020; Dressed Poultry -

Analysed By: Iberet Joseph and Francis Alituha

Technical Signatory: Iberet Joseph Date: 2023-02-04

For Executive Director UNBS: Date: 2023-02-05

1. Results marked (*) are not SANAS Accredited and are not included in the SANAS scheduled of Accreditation for this laboratory
2. Opinions and interpretations expressed herein are outside the scope of SANAS accreditation
3. This test report is only valid if it bears an authorised signature. The test report has been issued without any alterations and may not be reproduced except with written approval from the Excutive Director, Uganda National Bureau of Standards.

UGANDA NATIONAL BUREAU OF STANDARDS
CHEMISTRY LABORATORY TEST REPORT

Specification and US CAC/MRL 2: 2015; Maximum Residue Limits (MRLs) and Risk Management Recommendations (RMRs) for residues of veterinary drugs in foods.

3. The above sample meets the requirements for the parameters analysed as specified in the above standards.
4. This test report number (FA/2023/01061) is valid for sample number (L/0260/2023C) only and the results apply to the sample as received.

Note :

(i) N/A means 'Not Available'.

(iii) < (value, ppb) means 'Below the detection limit' for the parameter/"Not detected"
